Kristine,
I think the best way is for you to contact Jeremy Buck at USF&W. That way you'll get the most accurate & complete information.
Jim

Subject: Post Office Bar

Jim - I believe you said at yesterday's TCT that they used MI sampling at Post Office Bar. If so, I'd be interested in getting a copy of the SAP or WP they used because we are trying to get examples of this type sampling being used in sediments for possible future use. Please let me know if you have a copy or where I could get one.

Thanks,

Kristine Koch
